Istanbul Turkey

Turin Italy

**EUROBUMP**

Eurobump was founded in 1990 to meet the significant demand for plastic bumper coming from the local market.

Since 2002 and in recent years, our production of plastik bumpers, bumper grille, moulding and fenders has constantly adapted to the evolution of the European car market, rapidly changing.

# Eurobump Eurobump Eurobump

Our exports currently cover 100 countries around the world, reaching all continents. Our professional team, the large capacity and high technology of our plants, places us among the most reliable European manufacturers of spare parts. Our range is constantly evolving and, in combination with our quality and service levels, let us to achieve an excellent customer satisfaction.

# Production Production Production

Our bumpers are manufactured using high quality raw material, combined with the use of modern technology such as CAD/CAM system, our own tooling shop, CNC injection molding machines, painting shop, ultrasonic and hot welding robotic equipments.

Our investments potential is very important and we can now offer an average of 30 new items per year.
